

USER MANUAL For SCHOOL PORTAL

**SLSMEE- 2021-22 AND JNNSMEE-
2022, 'TECHNOLOGY AND TOYS',**

INTRODUCTION

Every child is eager to learn and capable of doing so. They acquired their knowledge as a result of their own efforts. Interaction with people and the environment around them helps children to learn. They build knowledge by tying new ideas to old ones. For kids of all ages, the benefits are enormous. Doing science projects helps to develop a child's resourcefulness, particularly their skills at goal-setting, planning, and problem-solving. It also nurtures intellectual curiosity, helping children acquire new ways of asking questions and understanding the world.

In order to stimulate creativity, inventiveness and the attitude for innovation in science and mathematics, National Curriculum Framework (NCF- 2005) emphasizes on activities, experiments, technological modules, etc.

THE PORTAL

Website link - slsmeeassam.in

Once a user access the website, he/she will land into the Home page. The different options that are available to the user on the home page are as follows:

- School Login
- District Login
